

July 7th – No Grand Rounds – Happy 4th of July Holiday!

**July 14th – Pediatric Obesity:
The Role of Advocacy, Thinking Outside the Office Setting**

Christine Wood, MD

Co-Chair, San Diego County Children Obesity Initiative
KidsEatGreat, Inc.

Objectives: At the conclusion of this presentation, participants will be able to:

1. Recognize the role of the environment in pediatric obesity.
2. Provide reasons why physicians make good community advocates on obesity prevention issues.
3. Identify examples of how physicians can take a role in their community advocacy and identify resources for community advocacy that physicians can access.
4. Use the information learned relative to various components of cultural and linguistic competencies (State Required AB1195).

July 21st – Are you ready for the new wave in genomic medicine?

Taosheng Huang, M.D., Ph.D., FACMG, CGMB

Associate professor, Department of Pediatrics, Developmental Biology & Pathology
Director of Cardiovascular Genetic Clinic

Co-Director, MitoMed Molecular Diagnostic Lab, University California, Irvine

Objectives: At the conclusion of this presentation, participants will be able to:

1. Understand the unprecedented sensitivity of the array Comparative Genomic Hybridization (CGH) test to detect chromosomal abnormalities.
2. Describe some of the many new genetic diseases that can be diagnosed by array CGH.
3. Understand that next generation sequencing could be the ultimate solution for personalized medicine.
4. Use the information learned relative to various components of cultural and linguistic competencies (State Required AB1195).

July 28th – Improving Your HCAHP Scores and Health Communication

Viki Kind, MA in Bioethics

Clinical Bioethicist Consultant

Objectives: At the conclusion of this presentation, participants will be able to:

1. Identify the communication obstacles that are affecting healthcare.
2. Demonstrate improved team and patient interactions through person centered communication.
3. Discuss how to manage interactions with difficult people.
4. Explain how these tools will respect those from diverse populations.
5. Use the information learned relative to various components of cultural and linguistic competencies (State Required AB1195).

Wednesdays 8:00 - 9:00 a.m.

Harold Wade Education Center, 2nd Floor CHOC West Clinic Bldg., 455 S. Main Street, Orange, California, 92868

These activities are in compliance with **California Assembly Bill 1195** which requires continuing medical education activities with patient care components to include teaching in the areas of cultural and linguistic competency.

Target Audience: Primary care pediatricians. Family practitioners, pediatric subspecialists, pediatric residents and other healthcare professionals involved in the delivery of care to infants and children are also invited.

Accreditation: CHOC is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. CHOC takes responsibility for the content, quality and scientific integrity of this CME activity. CHOC designates this educational activity for a maximum of 1.0 hour of *AMA PRA Category 1 Credit™*. Physicians should claim credit commensurate with the extent of their participation in the activity. This credit

July also be applied to the CMA Certification in Continuing Medical Education.

Financial Disclosure – No Commercial Support was received for these activities.

For further information, please call the Academic Affairs Office at (714) 532-8894 or (714) 532-8430.
