New in Burlew Medical Library

Every two years the Burlew Medical Library conducts a Needs Assessment Survey. This year we received an overwhelming amount of requests from our nursing staff for more computers, more desk space and a quiet study area in the Library. We were able to respond to this feedback by remodeling the infrequently used Audio/Visual room with new lighting, paint, desks, chairs and re-purposed computers available due to the Design for Perfect Care upgrades. In years past the A/V room was a bustling place, folks had to make an appointment just to use the resources (microfilm reader, VHS player, etc...). Open just over a month now, there is every indication that our users are enjoying the "new" space. Stop by and take a look!

Evidence Based Practice support – an update

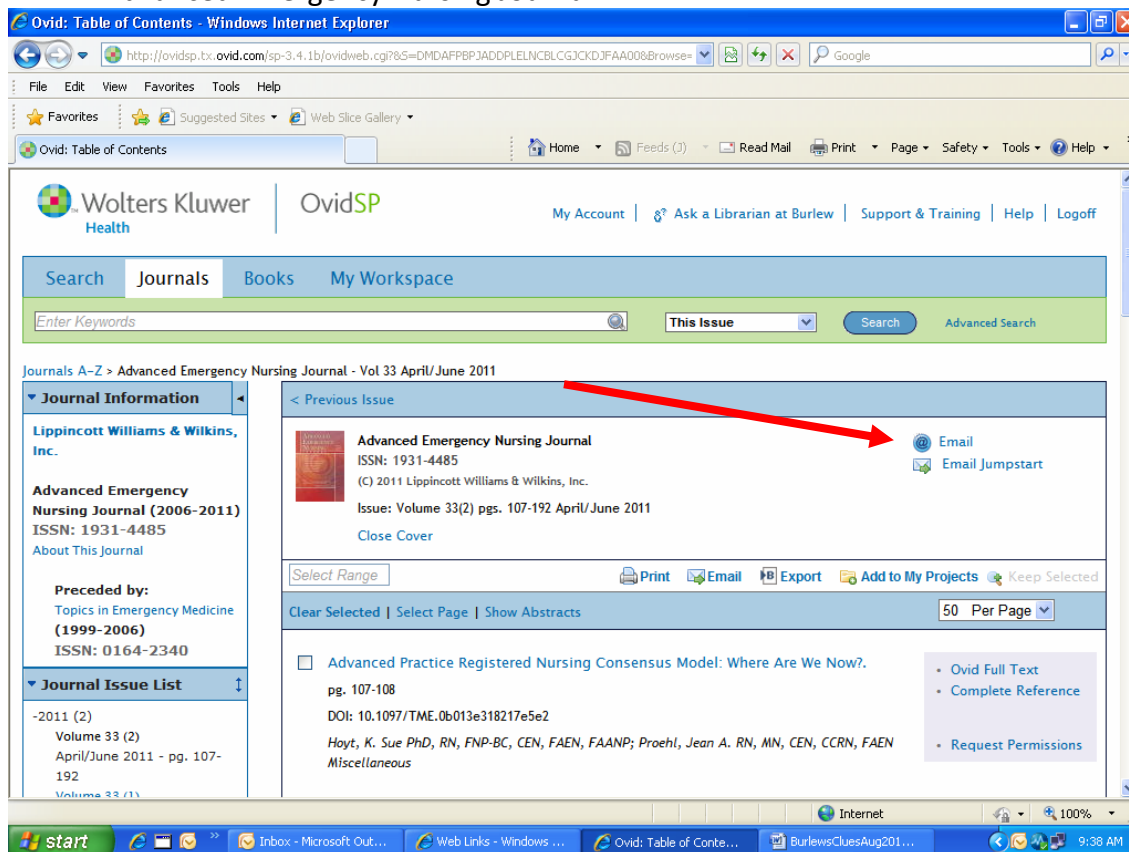

The next PubMed & CINAHL database searching class will return to the Sr. Francis Dunn Building, CR6B (large computer lab) on Wednesday October 19th from 10am – noon. Registration is available via CAREnet.

Unable to attend the class this year? Due to overwhelming demand we've added two additional sessions for the 2012 calendar year and have rotated the days/times to greater accommodate our employees' schedules. Registration will be available soon via CAREnet as part of the Clinical Inquiry series.

Danielle's database tips – access the latest Nursing articles

The Burlew Medical Library provides online access to hundreds of nursing journals such as: The American Journal of Nursing, Dimensions of Critical Care Nursing, Journal of Infusion Nursing, just to name a few. An easy way to keep up to date on the newest articles in your area of interest is to sign up for electronic Table of Contents alerts via email through Ovid. Take a look at the list of available nursing journals and sign up for Table of Contents alerts by following the steps below:

- Visit <http://ovidsp.ovid.com/> (username = burlew / password = burlew)
- Click on “my account” at the top of the page
- Click on “Journals” in the blue bar
- Scroll through all our online titles (117 journals), or filter by subject (left side of the page) to Nursing (91 journals)
- When you see a journal you are interested in click on the title. For example, take a look at Advanced Emergency Nursing Journal:

The screenshot shows the OvidSP interface in a Windows Internet Explorer browser. The page title is "Ovid: Table of Contents". The main navigation bar includes "Search", "Journals", "Books", and "My Workspace". A search bar is present with a "Search" button and an "Advanced Search" link. The page content is for the "Advanced Emergency Nursing Journal - Vol 33 April/June 2011". On the left, there is a "Journal Information" section with details for Lippincott Williams & Wilkins, Inc., including ISSN 1931-4485 and ISSN 0164-2340. The main content area shows the journal cover and a list of articles. A red arrow points to the "Email" button in the top right corner of the article list, which is used to sign up for email alerts.

- Click on “email”, you will be prompted to enter your email address then click “subscribe”
- This process allows you to receive regular updates (generally monthly) via email on the newest articles published in your favorite nursing journals!

Want help signing up for electronic Table of Contents alerts? Want to receive Table of Contents alerts for a journal not on Ovid's list? Contact the Burlew Medical Library staff at 771-8291 or danielle.linden@stjoe.org and we will walk you through the process.
